5. White Blood Cell Count (WBC)
Result: 7,500 cells/mcL
Normal Range: 4,500 - 11,000 cells/mcL
Status: Normal

Doctor's Observation

The patient shows mild anemia due to low hemoglobin levels.

Blood sugar levels are elevated and require monitoring.

Cholesterol levels are above the recommended range.

Vitamin D deficiency is present.

Recommendations

- Increase iron-rich foods such as spinach and lentils.
- Reduce sugar intake and exercise regularly.

- Follow a low-fat diet.
- Take Vitamin D supplements as prescribed.
- Repeat blood tests after 3 months.

Overall Health Status

Moderate Risk

Health Score

72 / 100
